- **In 2020** – Construction of two modern halls for PREFA production

**We are certified with:
ISO 9001: 2015, ISO 14001: 2015, ISO 45001: 2018, certificate of quality welding
according to EN ISO 3834-2: 2006**

FOCUS OF OUR ACTIVITIES

- steel structure production
- industrial buildings
- housing
- manufacture of precast
- reconstruction and renovation
- construction of prefabricated family houses
- construction of prefabricated residential houses
- complete farm buildings
- Related services: building design
project management

GUARANTEE

- compliance with deadlines and the agreed prices
- recommendation of the most efficient materials and structures
- implementation of experience from similar buildings

WE OPERATE IN THE CZECH AND SLOVAK REPUBLIC

- overview of our buildings can be found at www.sok.cz

CASH FLOW (thousand Kč)

RANGE OF SERVICES

- design of steel structures (SCIA Nexis 32)
- designing and processing of technical drawings in 3D programs (Advance-Steel, TEKLA)
- consultancy for investors, opposition
- manufacture, supply and assembly of steel structures incl. sheathing

QUALITY GUARANTEE

- we guarantee quality based on the established czech quality system CSN EN ISO 9001:2015 of modern technology
- professionalism and skills of our employees
- we possess all necessary licenses and certificates for supply of steel structures
- we follow prescribed technological procedures
- we implement a system of continuous controls
- we provide high production discipline

WARRANTY

- warranty on primary and secondary structures
- guarantees for surface treatment of structures and elements of the sheathing according to warranty cards

SERVICES

- material cutting on sawing-drilling machine Kaltenbach
- drilling holes on sawing-drilling machine Kaltenbach
- shaped sheet metal cutting, including making holes on burning machine ESAB with plasma or gas technology
- welding flanges of beams and stand on ESAB welding machine
- surface finish of parts before painting in a continuous blasting
- high-performance paint spray in a coating and drying tunnel
- performance of locksmith and welding works according to request

• JAROSLAV MELECHOVSKÝ
sales manager

Tel.: (+420) 739 255 613
e-mail: melechovsky@sok.cz

PRODUCTION HALL

The company S.O.K. stavební has a production area of 7,344 square meters including hall of four sections equipped with modern production facilities.

In the operating halls it is possible to manipulate with the individual profiles about the weight of 13 t, the length of 30 m and a height of 5 m.

Metallurgical materials and finished products are being stored inside the halls. Hereby, we eliminate the impact of unfavorable weather conditions on the base material as well as the recently painted steel structures.

STORAGE HALL

PRODUCTION HALL I

PRODUCTION HALL II

EXPEDITION HALL

SAWING-DRILLING MACHINE KDM 712 - KBS 750 DG

Working range drills - profile min (mm) / max (mm):

L 50 x 50 x 5	H 80 x 46
TR4 250 x 250 x 48	TR4 705 x 35
U 50 x 24	hole diameters: 10 - 32 mm
U 400 x 110 x 14	

Cutting range - angle / Dimensions (mm)

rectangular 90° / 750 x 500
rectangular 60° / 520 x 500

The length of the input material 1,5 - 12,1 m

Larger dimensions by agreement

BURNING MACHINE MASTERCUT-X 12001.20PGG + CL500

The maximum board size : 2000mm x 12000mm

Plasma : to sheet thickness 25 mm including

Flame : to sheet thickness 150 mm

Holes : to diameter 500mm and to length 6000mm

WELDING MACHINES ESAB MECHTRAC 2500

Welding Technology:
Method 121 (submerged arc welding),
fillet weld size without limitation as attested by
test WPQR.

The standard height above the table is 1250 mm

Height without the use of the table is 1900 mm

Weldments dimensions need to be consulted.

CONTINUOUS BLASTING EQUIPMENT

The device is suitable for blasting profiles and
finished parts (weldments)

Dimensions of blasted materials are limited by
dimensions of the inlet ongoing blasting device

Maximum dimensions

h - 1400 / w - 700 mm

h - 650 / w - 1400 mm

Length of blasted parts is about 12 m by
agreement

The surface for blasting corresponds to the degree
Sa 2,5

PAINTING TONSNEL - EQUIPMENT FOR FINAL SURFACE FINISHES

Spray booth consists of a spray and dryer box

Spray coating materials are carried out by high-pressure equipment

Dimensions of entry gate
w - 4000 mm / in - 3500 mm
greater lengths by agreement
